

**We Shape Plastics**  
Plastics Machinery Manufacturers Association of India

# PURPOSE OF FORMATION

Plastic Machinery Industry comes under DHI, and DHI wanted one voice from Industry to be heard by government for policy making. The association was formed in 2012, with just 13 members. Today we have more than 300 members. PMMAI is incorporated under section 25 of the companies Act, 1956 and that the company is limited.

## VISION

To be a global player providing world class products at competitive prices, contributing to the success of the plastics processing industry and be their preferred supplier of machinery.

## MISSION

Continuously promote growth and development of Indian plastics machinery to be world class in terms of quality, technology, cost competitiveness and process standards through an inclusive and cooperative approach to create value for the plastics processing industry, creating employment and competitiveness for our customer to build world class competitive supply chain. A non-profit organization aimed at advancing plastics machinery manufacturing industry in India. Move forward with cooperation and coordination at national & international level.

**Increase Indian Plastics Machinery's Global Contribution To 15 % (2020-2025)**

# STRATEGY

## Cost Reduction

- PMMAI since its incorporation is playing a strong Policy & Advocacy role with Government of India with the primary aim of enabling growth, standardisation, quality enhancement and sustainable growth of Plastic Machinery industry. PMMAI General secretary and office bearers have regular interactions with various Ministries and Departments in Government of India to apprise them about contribution of the industry for national growth, employment opportunities and export potentials.
- PMMAI is working on many fronts including learn from others by conducting members factory visits, through well conducted statistical study cost analysis and cost control plans, to support industry with training programs for quality enhancement. Some key elements are...!
- PMMAI launched the common purchase project to reduce cost of purchase to members. It started with cable purchase from qualified vendors and now extended to other products like motors, bearing and electric and electronic items, A strong purchase and technical team drawn from members have worked on this common for all project, which has reduced their cost of purchase from 10% to 30%.

## Standardisation

Our objective is to have an Indian standard under BIS adopted globally by all ISO member companies. PMMAI moved from observer category to participant category and now we have the BIS standard in progress aligned to ISO standards.

## Lean Manufacturing

PMMAI supports industry to adopt lean manufacturing to reduce cost and improve performance. Considerable improvement is seen in many plants enhancing their global image. It is a continuous evolving.

## Skill Development

PMMAI is Facilitating development of skilled manpower for the industry by adopting Industry & academia linkage. PMMAI members are supporting training and skilling of new talents in their plants as part of CGSC skill development program.

# Promotion of Indian Machines Through Exhibitions & Trade Fairs

- PMMAI has taken delegation of Indian Industry to many international exhibitions. PMMAI has shared the experience and learning with all members through writeups and seminars. PMMAI organizes Plant Visits for its members. We believe in knowledge sharing and share best practices among industry.
- PMMAI organised INDIAPLAST 2019, an International level exhibition in India showcasing Indian Plastic Machineries at lowest cost of exhibition. Exhibition was the biggest showcase of technology under one roof. Exhibition had its own USP as cost of participation was low but business generated was great as show was promoted globally and it witnessed more than 90 percent business visitors.
